## President's Column

by Chip Rosenthal

I am so excited about 2010 in our neighborhood. I'd like to tell you about a couple of things in store for us.

### Communication -- More and Better

We are increasing the newsletter frequency from quarterly (four times a year) to bimonthly (six times a year). After all, our association meets every other month (except for a break in July). So we should publish a newsletter every other month too. That will put our newsletter in sync with issues and events in our neighborhood -- which is the most important reason for publishing a newsletter.

What you are reading this month is our newsletter in transition. We wanted to be sure you got this information before the March general meeting, but we didn't want to rush out something half-baked. Expect a full issue in April.

Sometimes every other month isn't fast enough. That's why we're placing a renewed focus on online communications. If you haven't visited the [www.nscna.org](http://www.nscna.org) website recently, please do. It's being updated several times a week with useful news.

### Balancing Our Budget

Last year, our association operated at a \$1600 loss. This year, our board has taken on the challenge of balancing our budget. What's more, we want to do it without cutting back on our activities. In fact, we want to do even more events and activities.

I know that sounds like crazy math, but our solution is common sense: We're going to raise more revenue

while cutting back on expenses. We asked our Membership Committee to initiate a membership drive, so we can attract more dues paying households. (And we're starting the drive right now, with a membership flyer attached to this newsletter.) We also are asking event leaders to try to bring in more volunteers so our events are just as good, but less expensive to produce.

I'm so proud of this board and its "can-do" attitude. Our Treasurer Lois McEvoy will present the budget at the March general meeting.

# Neighborhood Safety

First, the good news:

Property crime -- the most prevalent form of crime

in our neighborhood --

has decreased since the start of the year. The bad news: It hasn't decreased enough. Some neighbors have experienced recent incidents of theft or burglary.

Most of these crimes are occurring during the day, while many neighbors are at work. If you are in the neighborhood during the day, please keep an eye out for suspicious people

or activity. If you see anything possibly suspicious, call 911. Even if you aren't sure, go ahead and call 911. Let the police decide whether the situation warrants investigation.

When you spot suspicious activity, please take a moment to observe the people and their vehicles. A good description could be the difference between an unsolved crime and an apprehension. The police say that a car license plate number is one of the most helpful things they can get to identify a suspect.

Your support could help make our neighborhood even safer.
