LOCAL RESOURCES

I. City of Austin Local Area Traffic Management Program (LATM)

www.austintexas.gov/department/local-area-traffic-management-program

The Local Area Traffic Management program (LATM) is a request-based program to improve the quality and safety of neighborhood streets. This is achieved by installing traffic calming devices along the requested street segments. These [devices](#) may include, but are not limited to, speed humps, speed tables, speed cushions, roundabouts, median islands, chicanes and bulb outs.

Currently LATM is addressing only speed mitigation issues.

II. City of Austin Public Works Dept. Neighborhood Partnering Program (NPP)

www.austintexas.gov/department/faq/what-neighborhood-partnering-program-npp

What is the Neighborhood Partnering Program (NPP)?

The [Neighborhood Partnering Program](#) (NPP) allows citizens to partner with the City to propose small to medium scale projects on City-owned property to improve the places in which they live, work and play.

- Beautification/landscaping, including adopting a City median
- Pedestrian and bicycling enhancements
- Community gardens
- Pocket parks
- Trails, trailheads, and gateways
- Curb, gutter, and green streets
- Street furniture
- Park improvements
